

Specialising in Domestic Property Testing for Asbestos

We can also carry out full Asbestos Surveys and Asbestos removal

Asbestos Testing

My Name is Ray Doyle and I have owned and run my own Asbestos compaiy for 18 years, I am a qualified Asbestos Surveyor and I also instruct in Asbestos Awareness and Asbestos removal to the construction industry.

I am now specialising in Asbestos Sampling for people buying /selling there properties and Refurbishing the properties they have bought.

Check out my reviews on google at Asbestos Testing Newcastle
Or on Yell at TASC

Why Use Me?

I have also been in the building industry for over 30 years, so know how buildings are put together and offer advice on what your options are if Asbestos is found, my sampling service is competitively priced and offers a fast turnaround on samples taken.

When you call it will be me that you speak to, I will take you through the process if you have had a Survey report completed I will interpret it for you so you don't ask for a Asbestos Survey, when all you need is a couple of Artex samples testing.

There is no short cut to experience and knowledge in the Asbestos industry.

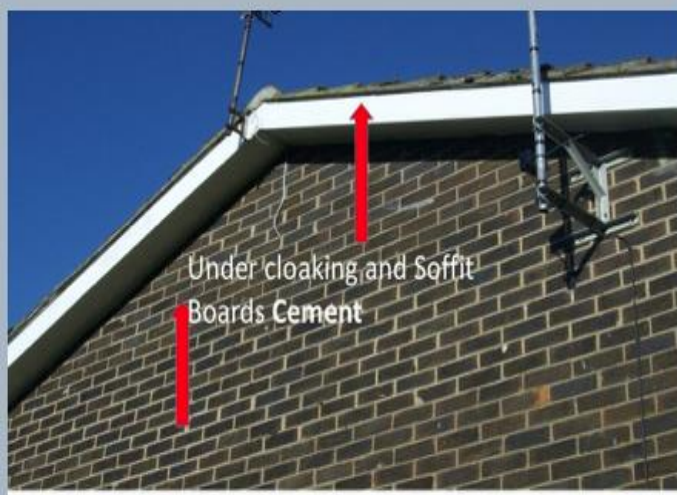

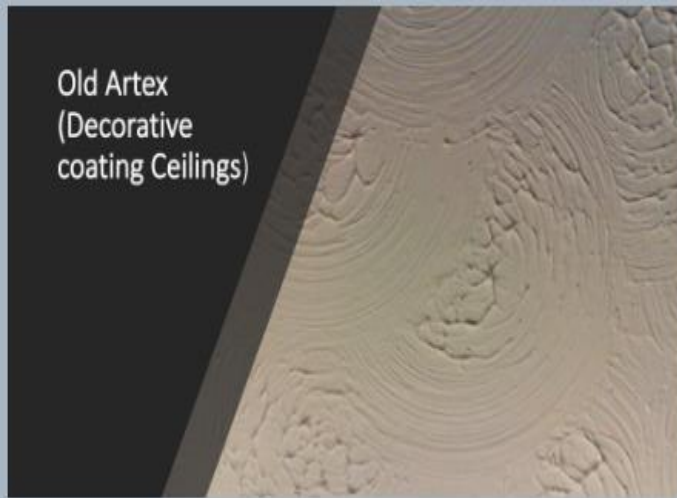

Get more information on Asbestos from the government web site so you know you are getting the correct advice.

Outstanding service and went the extra mile, 10/10

Absolutely outstanding service, second to none. Ray really pulled out all the stops to turn around our 4-bed asbestos renovation survey and results as quickly as humanly possible for me after another company let me down. Really glad they did, as Ray was very experienced, knowledgeable and just so friendly and helpful. Can't recommend enough.

Full asbestos report

First class service from ray and his team, he carried out a full report for a property purchase, he had the report back as promised. Would definitely recommend and use him again... Cheers 👍

Refurbishment survey

Contacted Ray having read reviews on Yell and wasn't disappointed. Ray fit us in at very short notice as we were wanting to get work started on our new home but our homebuyers survey recommended an asbestos check. Really thorough survey and received an email from Ray the next day putting our minds at rest. Ray is a very pleasant gentleman, punctual and very professional (thanks again Ray). Mark & Yvonne

Highly Recommend TASC

Really impressed with Ray and his team. TASC carried out a thorough refurbishment survey for me on a home I'd bought covered everywhere in different styles of ugly artex. One area of artex tested positive for asbestos on a wall I needed removing. Ray's team removed this safely & at a very reasonable cost. I called TASC back again to test some vermiculite loft insulation we later uncovered. Thankfully negative. Some other companies I spoke to seemed unprofessional & I didn't feel I could trust them, while others were praying on the 'fear factor' & quoting expensive costs before even coming out to test.

Highly recommend Ray. He is very experienced & will explain everything you need to know about the risks of asbestos. A professional, informative, honest & efficient service.

I have had no prior experience in dealing with asbestos but Ray took the time to explain the whole process with me along with the potential outcomes.

Upon agreement the work was carried out very quickly and the report produced likewise. The format of the report is clear, concise and inclusive of all corrective actions/costs.

Would not hesitate to reach out to Ray

Garage Cement board
Ceiling
Before

A photograph of a garage interior before renovation. The ceiling is made of large, light-colored cement boards. The walls are constructed of red brick. A white door is visible on the left, and a fluorescent light fixture is mounted on the ceiling. A blue textured bar is positioned below the image.

Garage Ceiling After

A photograph of the same garage interior after renovation. The ceiling has been replaced with wooden planks and exposed wooden joists. The brick walls and white door remain the same. A red textured bar is positioned below the image.

Asbestos Waste Removal
Before

A photograph showing asbestos waste removal before. Large, dark, corrugated sheets of asbestos are stacked against a red brick wall. A black plastic bag is visible in the background. The ground is covered in dirt and debris. A red textured bar is positioned below the image.
